Curriculum Vitae

Anke Sillars-Hardebol was born on the 16th of January 1982 in Purmerend (The Netherlands). In 1994 she started high school at Bernard Nieuwentijt College (Damstede) where she obtained her VWO certificate in 2000. From September 2000 till July 2003 she studied for her Bachelor degree in Bio-medical Sciences at the VU University in Amsterdam. She continued her study in the Master of Oncology course at the VU University Medical Center (Amsterdam). Her first internship was in the same institute at the Department of Medical Oncology, subdivision Angiogenesis under supervision of Dr. M.C.A. Duyndam and Prof. Dr. E. Boven. At The Beatson Institute for Cancer Research of the University of Glasgow (Glasgow, Scotland) she performed her second intership supervised by Prof. Dr. R. Brown. In August 2005 she obtained her Masters degree in Oncology with honours. Shortly afterwards she started her PhD at the Tumor Profiling unit of the Department of Pathology (VU University Medical Center, Amsterdam) supervised by Dr. B. Carvalho, Dr. R.J.A. Fijneman and Prof. Dr. G.A. Meijer. The present thesis entitled "Chromosome 20q genes in the pathogenesis of colorectal cancer" is the result of this PhD study. From January 2010 till December 2011 she worked as a teacher at the HLO (Hoger Laboratorium Onderwijs) of Inholland (Amsterdam).
